What is wrong with your kite? Please use the image below to draw and mark spots you want us to repair. Be **as specific as possible**. Describe the **reason** for the damage (tree landing, tomahawked kite, over inflation...). Specify effects of the damage and location like tears, bladders leaks, valves leaking: _____

Draw in any damage, measure the length of tears and rips.

If your kite has less or more Struts, feel free to add or correct the drawing!

I authorize work to be done on my above listed gear, according to my description if under the amount of \$_____ without contacting me prior. Me, the customer, acknowledges that the kite being repaired is a used product. Me, the customer agrees to hold kitegearfix.com, or any of its managers, agents or representatives harmless from any liability, loss or injury or death claimed by any one as a result of this repair.
